

Cancer Awareness, Screening and Vaccination for Urban & Rural Women of India

Supported By:

WCS Cancer Awareness, Screening and Vaccination for Urban & Rural Women of India for Breast and Cervical Cancer

We Care Society's integrated approach on Breast and Cervical cancer involves

- Provide Education and Create Awareness
- Conduct early screening and detection
- Vaccination (Cervical Cancer) programs for girls above the age of 13yrs
- Mobile van equipped with Mammography and VIA/PAP facility will be put into action for the program

Our Motivation

- To demystify Breast & Cervical cancer
- Address the myths and personal stigmas around Breast & Cervical cancer
- Make public the impact of Breast & Cervical cancer on the society
- To offer an easy, direct, comfortable platform to address the needs to women
- Provide free screening for BPL families

Our Mobile Solution
