

Knowledge Partner for Sustainable Sugar Cane Program in India for Solidaridad

Supported By:

Solidaridad

Knowledge Partner for Sustainable Sugar Cane Program in India

In 2017, Solidaridad commenced “Sustainable Sugarcane Initiative in Karnataka” interventions in partnership with Shree Renuka Sugars Ltd. and supported by Coca Cola Foundation to promote good agronomical and climate smart agriculture (CSA) in sugarcane farming. This project focuses on sustainable sugarcane production through climate smart agriculture practices in the area of four units namely Athani, Kolavi, Munoli, (Belgaum district) and Havalga (Gulbarga district).

To measure the rate of adoption of CSA and understand its impact on yield, Solidaridad plans to conduct an end-line yield assessment study

WCS is associated with SPINOX in conducting the research in the 2 districts of Karnataka namely Belgaum and Gulbarga.
